

Financial Information

CFISD covers a small portion of our expenses each year including local transportation, uniforms, school owned instruments, etc. As a result, students and the Cypress Falls Band Boosters make up the difference in order for us to attain our goals of being a viable competitive marching and concert band program. We rely on each family to be diligent with their payments so that we can continue to compete at the high level we presently do. Unfortunately, “scholarships” do not exist. However, extended payment plans can be put into place once discussed with the Director of Bands.

In an effort to streamline the registration and payment process, we have a payment schedule for the 2018-2019 school year. These payments correspond to the expenses we incur each year. Students that do not pay will not be prevented from participating. That being said, students who are not current with their payments may not receive consumable items or be eligible to exempt final exams and will not graduate until all monies are paid in full.

A majority of the items for students are consumable (water bottles, t-shirts, audition fees, meals, master classes, etc.) and as a result, the payments are non-refundable. In the event that a student should exit the program or become ineligible due to grades or other circumstances, payments up until the time of the exit will be expected and will not be refunded. For your convenience, the Cypress Falls Band Boosters accept cash, check (made payable to ‘CFBB,’) Paypal, and Visa/Mastercard payments.
